

iPad Apptivity - Parts of Addition and Subtraction

Choose a fact family card.

Take a photo of the fact family card in Explain Everything.

Use Number Line to show the given part of the whole number. Make a new "jump" to show the missing part of the whole number. Take a screenshot and put it into Explain Everything.

Use Number Frames to show the whole number. Use one colour only. Change some of the counters to another colour to show the given part. Take a screenshot and put it into Explain Everything.

Now that you can see the missing part, fill in the Part-Part-Whole box and related addition and subtraction facts.

Scan the QR code to check your answers.

Save your file as "Parts of Addition and Subtraction".
